At ProVia, we take pride in delivering entry systems of top quality construction, made with the finest materials, and backed by our Lifetime Limited Transferable Warranty.

# Durability

Our Legacy™ 20-gauge smooth and woodgrain textured steel and our Heritage™ fiberglass doors provide beauty and durability.

Our doors are available with a Pineguard™ full wood frame (Lifetime Limited Warranty) or ProVia's 18-gauge steel L-Frame design.

Our hinges are coated with a special rust resistant zinc chromate finish for long-lasting beauty.

High performance, heat resistant window trim is warranted not to warp, crack or pull away from the door, even in sunny or higher temperature applications.

To reinforce the lock and deadbolt area, we add a rigid composite lock block to all our steel doors.

We reinforce the lock area of our fiberglass doors with a solid wood block.

Your security and safety is our concern. That's why we've reinforced our lock and deadbolt areas with commercial gauge steel.

# Security

**Our 20-gauge steel security plate ensures you a level of security not found on other residential doors.**
